TIME LEFT UNTIL THE WEBINAR STARTS...

Presented by best-selling author and gold expert...
JAMES G. RICKARDS

I'm going to show you...

How a class of "off-limit" gold stocks could become fair game and shoot up in price...

Why just as many gold stocks could be CRUSHED. But this isn't a bad thing. In fact, it's going to open up a unique opportunity not seen in years...

How it could compound an announcement from the Federal Reserve next week that could send physical gold prices much higher...

Why you'll hear predictions of doom for the gold market (it's important you understand the truth and know the real profit opportunity that's being set up)...

Why we may see confirmation that gold will make a run at \$2,000 sooner than anyone thinks...
